A MIM degree at the University of Maryland College of Information Studies (UMD iSchool) prepares students to become leaders of information and technology in any organization.

Through an innovative curriculum that draws from management, computer science, information systems, and information science, this degree program addresses the growing and unique need for information professionals who understand complex social and organizational issues.

Our students become experts in:

- Data Analytics & Visualization
- Organizational Technology Development and Deployment
- Organizational Information Strategy, Governance, and Risk

Why the MIM program stands out from the rest

- Our unique combination of knowledge areas coupled with our hands-on learning approach prepares graduates to apply their skills directly and immediately in their careers.

- 400+ top industry and government partners, such as Amazon, Google, Adobe, Pepsi, Verizon, Capital One, and the US Department of Defense, provide unequaled applied learning opportunities, events, and internships for our students.

- We offer part-time options and a flexible schedule, ideal for working professionals.

- The MIM program is STEM Certified: international students can apply to work in the US for up to three years after graduation via the US STEM OPT program.

Specializations

- Data Analytics
- Technology Development
- Strategic Management
- Individualized Program Plan

Fast Facts

- 99% Employed within 1 year
- #3 Public University in the USA
- #8 Info Studies College in the USA

Our students learn how to:

- Transform information and data into actionable knowledge that drives decision-making and helps to solve real-world social and organizational challenges.

- Lead efforts to develop organizations’ information management capabilities through policies, systems, and services.

- Assess and meet users’ information needs.

- Develop and deploy emerging technologies.

- Manage high-value information resources.

- Advise on ethical, political, social, and technical issues related to information management.

“... wanted a program with flexibility. MIM gave me the opportunity to take a mix of courses that allowed me to explore and prepare for my career.”

– Rishi Jain, MIM 2019
